

# VICTORIA SEVILLA

Frontend Developer

[linkedin.com/in/v-sevilla](https://www.linkedin.com/in/v-sevilla) • [github.com/v-sevilla](https://github.com/v-sevilla)

## Summary

Frontend Developer with experience in agile full-stack development and collaborative leadership. Excited to apply recent studies in React.js in agile methodologies and effective problem solving to enhance user experiences within a software developer role.

## Skills

**Technical Skills:** HTML, CSS, JavaScript, React, MongoDB, Tailwind CSS, Figma

**Areas of Knowledge:** GitHub, Responsive & Mobile Web Design, Agile Methodologies, Rest APIs

## Work Experience

**Freelancer**

**January 2024 – Present**

[vonnepierre.com](https://vonnepierre.com)

- Collaborated with the client to design the layout for their service-based website, structuring content to effectively showcase their services and attract potential clients
- Styled using vanilla CSS to ensure optimized performance, maintain a lightweight codebase, and improve readability for future enhancements

## Selected Projects

**Recipe Finder App | Practicum Group Project at Code the Dream**

**Nov 2024 – Jan 2025**

[hh-team5-front.onrender.com](https://hh-team5-front.onrender.com) | [github.com/Code-the-Dream-School/hh-team5-front](https://github.com/Code-the-Dream-School/hh-team5-front)

- Collaborated with a team of developers in a scrum environment to develop a full-stack recipe finder app with functionality to retrieve and favorite recipes
- Designed initial wireframes in Figma that served as a visual guide and flexible blueprint for both frontend styling and backend development, ensuring a responsive interface
- Took initiative in leading weekly standups ensuring team alignment, resolving roadblocks, and maintaining project momentum

**To-Do List App | Personal Solo Project**

**Jun 2024 – Oct 2024**

[react-todolist-simple.netlify.app](https://react-todolist-simple.netlify.app) | [github.com/v-sevilla/react-todo](https://github.com/v-sevilla/react-todo)

- Integrated Airtable API to store, update, and retrieve tasks while ensuring data persistence
- Added sorting functionality to allow users to organize tasks alphabetically

## Education
